Trains must keep fifteen (15) minutes apart when descending grades between Beaumont and Redlands Junction, and Beaumont and Palm Springs.

Unless otherwise instructed by train order, all trains, other than first class, will take siding for opposing trains while ascending grades between Rimlon and Loma Linda inclusive; this does not apply to light engines, which will take siding for all trains in either direction.

West-bound trains are superior to trains of the same class in the opposite direction. See Rule 81.

In addition to tests made at Initial station, air brakes on all trains must invariably be tested from rear of train at Colton Beaumont, Palm Springs and Indio.

East-bound freight trains will stop at Cabazon, Palm Springs and Dry Camp and west-bound freight trains at Ordway, w[illegible]re trainmen will make careful examination of wheels under all cars in train.

Registering Stations: Pomona, Ontario, Colton, Redlands Junction, Beaumont, Palm Springs, Indio, Rimlon, Edom and Myoma (three latter for helper engines only.)

Trains will approach Fourth Street with great care and know that crossing is clear before passing over. When flagman is on duty, they will not proceed without signal from him that track is unobstructed.

Registering Stations: River Station and Los Angeles.

Automatic block signals provided with overlaps are located as follows:

Los Angeles between Point 4600 feet west of first crossing Los Angeles River and River Station.

Los Angeles, between River Station and Naud Junction.

Los Angeles, between Arcade Depot and Clement Junction.

Los Angeles, between Naud Junction and Tower No. 1, on west-bound track.

Between Dolgeville and second crossing of Los Angeles River on west-bound track, and from east end of Aurant yard to Dolgeville on east-bound track.

Santa Monica, from 99-steps to west end of Material Yard.

Block signals, between Naud Junction and Arcade Depot are "manually controlled."

The limits of these blocks when not indicated by signals will be shown by a sign reading "Block Signal Limit," placed on the engineer's side of the track.

Just west of entrance to River Station Yard there is a 2-arm signal (No. 13) which governs the east-bound track. The top arm is a block signal and when clear, indicates that switches are set for main line and block is unoccupied. Lower arm permits freight trains to enter the yard and is cleared by switch tender after lining up switches for the yard by pressing one of the buttons attached to the short posts opposite these switches.

Trains will be governed by these signals in accordance with standard rules. (See pages 92, 93, 94, 95, 96 and 97.)

Referring to Rule No. 40, page 94, covering observance automatic block signals; when a train is stopped by block signal between Dolgeville and second crossing Los Angeles River, it will wait two minutes after flagman has gone ahead, before proceeding through the block cautiously. Between first and second crossings Los Angeles River and Clement Junction flagman need not be sent ahead and trains may run by signals at danger after waiting one minute for clearance, passing through block cautiously. When trains are stopped by signals through Santa Monica Yard they will wait three minutes after flagman has gone ahead before proceeding through block cautiously.

Trainmen must not depend upon the Block System to protect their trains; but wherever necessary, must see that the train is protected by flag, as per rule 99, as supplemented; to which particular attention is called.

All light engines will take siding for all trains.

Trains must not be run from the *instant of their departure* from any station to the *instant of their arrival at the next station* in less time than given in the column headed *"Minimum running time between stations."*

No train will exceed a speed of fifteen miles per hour over any railroad crossing, motor and electric crossings included.

FLAGGING.

Attention is called to information shown in vertical columns on face of this time-table to right and left of station names, denoting flagging distances as per Rule 99. These distances must be strictly observed.
